

# Lamina<sup>®</sup> micro fuel cell

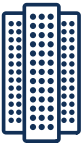

**Size does matter**

it's only 9" (displayed at 100%)

## Configurable

The Lamina fuel cell is optimised for cost, durability and flexibility. It serves systems from 10W to 3000W and output power and voltage can be configured for each application.

## Packageable

The Lamina fuel cell is an open-ended system and can be packaged flexibly in challenging spaces with maximum safety and minimal balance of plant.

## Sustainable

The Lamina fuel cell provides emission free energy, has a long lifetime and is 100% recyclable.
